HUSKY STUDENT OF THE MONTH

Computer Science

Andrei

Andrei is taking intermediate level Computer Science 30S after completing a previous Computer Science course with one of the highest marks in the class. Andrei has a quiet and warm personality with a strong work ethic. Andrei is a well-balanced student and has a drive towards his studies. Andrei is working well in the course, asks questions, is receptive to feedback, goes back to improve his work, and shows a great aptitude for problem solving/programming. I hope Andrei will continue to excel and find Computer Science a subject that he can pursue into his future.

Great job Andrei !
