"Coming to Canada to study abroad I felt was one of the best decisions I have ever made. It was exciting not only because of the new, supportive teachers and friends I got to know, but also the opportunities I'm getting to be a better student and a better person. One of my favourite things about school here will always be the course selections. It amazes me how many options students are offered to help us choose the future path that we want to follow as well as train ourselves to be responsible and innovative young adults." –Sarah, Vietnam

"The last three months in Canada have been some of the best times of my life. School is fun and the family I live with is very nice. When I have any problems I can always talk to them but also the people from the school district. Maybe you fear the winter in Canada. Don't! The weather can be cold, but think of all the fun you can have in snow and ice: skating, playing ice hockey, skiing..." –Jonas, Germany
