ECAB-R

### **STAFF AND VISITOR IDENTIFICATION**

Access to the facilities of The St. James-Assiniboia School Division must be controlled and monitored if the students, employees, the learning/work places generally, and sensitive information are to remain secure. Every student, employee, and visitor has a role to play in ensuring that the facilities are secure.

A key component of this facilities security plan is the use of identification tags for employees and visitors to support access to only those individuals who have a justified need to be in the facility.

All persons will support the steps needed to ensure facility security identified in ECAB-R.
