INTERNATIONAL STUDENT PROGRAM

The St. James-Assiniboia School Division is committed to an International Student Program designed to meet the needs of international students with talents who wish to pursue studies in English. The program is available at all grade levels.

The International Student Program integrates students into classroom settings with local students, allowing for a quality cross-cultural academic experience. Under the management of The Director of the International Student Program, the Division offers the support and supervision international students need to make the necessary adjustments. A qualified counsellor monitors each student's academic progress, offers support and guidance whenever necessary, and forwards regular reports to each international student's parents. The Division's EAL programs, available at each school level, are part of the educational process.

Homestay families, if required, are available for students so that they can experience Canadian culture and family life at its best, as well as become immersed in the English language.

Fees are established annually.
