Staff Allocation

The St. James-Assiniboia Division Staffing Allocation is based on assigning staff in an equitable and fair manner to assist with the overall efficient and effective operation of the school division.

The Board of Trustees annually approves a budget which will provide sufficient funds to hire the necessary staff to ensure that approved programs will have appropriate personnel in place.

The administration will be responsible for developing and administering an equitable staffing formula which will meet the goals of this policy and the mission of the school division.
