LETTER OF UNDERSTANDING

RE: ARTICLE 17 – VACATIONS

The Division and the Union agree to the following facts and application of vacation entitlements should an employee's percent of employment change during the course of the vacation earnings year of July 1 – June 30.

Vacation day entitlements are dictated by article 17.01 of the collective agreement. Vacation entitlement is earned in accordance with an employee's percent of employment (FTE) worked throughout the year and any change(s) to an employee's percent of employment will affect vacation entitlement accordingly.

All vacation days must be taken at the employee's current percent of employment and current rate of pay.

$$\frac{\text{Actual Service (Hrs) during the year}}{\text{Maximum Service (Hrs) During the Year for full-time ee (2080)}} \times \text{Rate of Vacation = Employee's Vacation Entitlement (Hrs)} \times \text{Prevailing Hourly Rate = Total Vacation Paid Entitlement (hours for at time of payment the year)}$$

Where any change in percent of employment throughout the year results in a net increase in percent of employment, an employee will have vacation days reduced with the option to take unpaid days to the maximum vacation entitlement.* This option may only be exercised during the year in which the change in FTE has occurred.

Where any change in percent of employment throughout the year results in a net decrease in percent of employment, an employee must take the maximum vacation days, at the current FTE, and will be paid any remaining vacation monies by July 31.**

*A leave form requesting leave without pay must accompany the request for vacation submission by March 31. If the change occurs after April 30, a leave form must be submitted as soon as possible and will not be unreasonably denied

**If changes in percent of employment occur after April 30, any remaining vacation monies owed will be paid out as close to July 31 as possible.

The parties acknowledge that by adopting this interpretation of Article 17 that employees will receive vacation entitlement in accordance with FTE worked throughout the previous year.

The adoption of this interpretation of Article 17 shall take force and effect as of July 1, 2012.

RE: COMPUTER TECHNICIANS MODIFIED SHIFT

Commencing August 20, 2015, the parties agree that from the date schools open each fall to the end of the school year in June, the Division may require Computer Technicians to work a modified shift from 1:00 p.m. to 9:00 p.m.,*(which includes an unpaid 30 minute meal break).

The understanding between the Division and the Union is as follows:

The requirement for modified hours would be 2 or 3 times per year, on average.

Modified hours could last up to, but not normally exceed 2 weeks in duration.

The Division will provide a minimum of one week notice to employees of the requirement for a modified shift and the number of employees required to work the modified shift.

Depending on the number of employees required to work the modified shift, employees would be initially requested to volunteer to work the modified shift. Should more employees sign up than are required, employees selected would be based on those with the most seniority.

Should there not be enough employees who sign up, the most junior employees would be assigned to work the modified hours for the first shift of the school year, thereafter assignments would be rotated among the workers by the Division, as required.

The Division will maintain a core group of technicians on "day shift."

The Division and Union will meet during the duration of the collective agreement to monitor and discuss the operation of the modified shift.
