BIBA-E

BOARD MEMBER DEVELOPMENT OPPORTUNITIES

School Trustees are the governors of a learning organization and in that role must recognize and accept the need for continuous learning and development to carry out their role successfully.

Election to office does not prepare one for the complexities of educational governance. It is necessary that Trustees are encouraged to attend workshops, conferences, seminars, and conventions to continuously improve their knowledge and experience.

Trustees must exemplify the need for and benefits from lifelong learning. Their learning experiences should be well-balanced between individual activity and learning experiences involving the Board as a whole. Individual learning experiences are shared with the Board using the report form provided BIBA-E.
