

John Mulligan

2014 – Present

John Mulligan was first elected to the St. James-Assiniboia School Board in October 2014, representing the Silver Heights-Booth Ward. John brings a background in finance, graduate research and a connection to community to the board table. In addition to an eighteen year finance industry career, John has a Master of Science degree from the University of Manitoba faculty of Agricultural Economics. John can be found on the soccer and baseball fields, in the hockey rinks and school gyms to provide that feedback loop between board policies and St. James-Assiniboia families.

These backgrounds have been used to contribute to the non-teaching staff's defined pension plan Retirement Committee, the Education Committee and the Finance and Facilities Committee. Board committees have a commitment to empirical decision making. This commitment must be based on sound and objective methodologies and peer reviewed research.

Above all, school board policies must be understood by its stakeholders. As a proud lifelong resident of St. James-Assiniboia, John is committed to sound policies and the energy to include the community in decisions that affect them.
