A Different Way to Learn

For over 30 years, Oxford Learning has taught students using the proven scientific approach known as Cognitive Learning. Cognitive Learning is all about helping students develop a new way of thinking. With Cognitive Learning skills, students understand what they are learning and how they are learning.

You Don't Need a Tutor

Tutoring relies heavily on memorization. At Oxford Learning, we take a decidedly different approach—one that helps students build the cognitive, metacognitive, and learning skills they need to absorb, process, and understand.

We don't ask children to review and memorize the same old stuff: we help them build the skills they need to really learn and understand.

With Oxford Learning's programs, you won't just be putting an end to today's school struggles; instead, you'll be putting an end to the time and expense of hiring a tutor year after year. You'll be giving your child the skills he or she needs to continue to succeed throughout life.

I have really noticed that Michael's confidence is up and it's because, for the first time, he's started the school year in a position to do the work, thanks to Oxford Learning! I really think that his time spent at Oxford Learning, especially over the summer months, helped. He told me he read part of a chapter book to the resource teacher and he told Michael that he was "impressed". Thanks again!

OXFORD LEARNING IS... A SMARTER SUMMER

Little Readers® Ages 3 - 6

Studies show that 25% of children arrive for their first day of school lacking the skills they need to begin a lifetime of learning. Yet, research confirms that preschoolers who learn to read early perform better throughout their school years.

Oxford Learning's Little Readers Program is an enriched, individualized program that develops the skills needed to learn and excel—including reading, writing, math and fun activities that build self-esteem, confidence and a love of learning.

Why not get your preschooler off to a flying start this summer, rather than wait until September?

Accepting enrolments year round.

Days: Monday - Friday
(morning and afternoon sessions)

Regular Program Ages 6 & Up

Our year-round regular program continues throughout the summer. Our individualized programs have helped hundreds of students improve their marks and build self-esteem.

Summer is an exciting time for your child. It signals the end of one grade and the time that students start thinking about what the next grade will bring. Think now about keeping your child's academic skills sharp. What preparations are you making for your child's education this summer?

Research proves that children who don't exercise their minds over the summer holidays can take up to two months to get back into the swing of learning when school starts.

An Oxford Learning Summer Program can enable your elementary or secondary school child to return to school confident, motivated and well prepared for success in the new academic year.
