# Athlone Literacy Goal 2023-2024

## **Thematic Goal:**

**Identify** what is most important right now?

Every student will demonstrate a year's growth of reading skills.

# **Our Defining Objectives:**

**Clarify** the objectives of what is most important.

- Usage and consistency of common language, programming and assessment practices at primary and intermediate levels.
- Students' phonological awareness, including rhyme, word, syllable, and phonemic awareness will be strengthened.
- Students' decoding skills will be strengthened.
- Students' letter and/or sight word recognition will be strengthened.
- Students' oral language will be enhanced through rich language experiences.
- Students' comprehension skills, and subjectspecific vocabulary will be strengthened.
- Teachers will provide regular and ongoing monitoring of students' skills and reading progress – divisional common assessments to be utilized to guide instruction/programming
- Literacy progress will be tracked through the 'Struggling Readers' document for appropriate intervention planning.
- Interventions will be provided to students who need support in decoding skills, sight word recognition, and/or comprehension skills.

<u>Operating Objectives:</u> What ongoing practices and measurements will we maintain to ensure we are accountable to our goal?

#### Action 1

Grades K-5 Classroom and support teachers will model and teach specific reading strategies during whole class instruction, small group support, and/or individual interventions (looking at picture clues, using letter clues, chunking unknown words, rereading, skipping ahead, etc.) using appropriate texts.

#### Action 3

K-5 classroom and support teachers will support students' phonological awareness development (rhyme, letter-sound awareness, syllables, segmenting of words, blending of sounds, etc.) through whole class, small group, and individual lessons as this will best support students' decoding of unfamiliar vocabulary.

#### Action 5

Grades 1-5 classroom teachers and/or support teachers will provide regular guided reading lessons and informal/formal running records to monitor student progress. We will also encourage consistent home reading partnerships and programming expectations at each grade level.

#### Action 2

During whole class, small group, and individual lessons, K-5 classroom and support teachers will ensure that students are reading (listening) for meaning by asking questions that recall information, encouraging predictions, listening to a re-telling of a text, and supporting students' ability to make inferences beyond the written text - focus on comprehension and fluency.

#### Action 4

K-5 classroom teachers, support teachers, and/or EA's will provide programming for students that require an expansion of their letter recognition and/or sight word recognition.

Focus for our EAL learners will be to support direct vocabulary instruction through front-loading, visuals and experiences.

### Action 6

In grades 1-5, the Words our Way spelling inventory will be completed 2 times a year (beginning, middle, and at the end of the year) to monitor students' letter-sound awareness.

Assessments will guide teachers' Word Work focus.
