

Buchanan School Goals 2025-26

Numeracy:

Students in Grade 2 and Grade 3 will demonstrate improvements in their conceptual understanding of basic facts, their flexibility in making computations, and their automaticity when recalling facts. This will allow them to focus on more complex problem-solving rather than basic calculations.

ELA:

Students in Grade 4 and Grade 5 will demonstrate improvements in generating ideas and effectively communicating their ideas in writing.

Specifically:

Grade 4: Expanding on the three supporting ideas; intro and closing sentences, transitions, and focus on voice.

Grade 5: Deepening the understanding of voice, fluency, and exploring writing across the genres. Focus on form, audience, and purpose.

Ma Mawi A'nokiitaw Miinawa a (We Will Work Together Again)

All students will be able to explain what a Treaty is and the importance of it. Students will learn about Treaties in the context of Canadian history and will work together to create classroom treaties and a collaborative Buchanan School Treaty. Indigenous Education will be more visible in the school.
