

## George Waters Middle School

### Notes from the Office

October 2025

Hello Shark Families!

As we continue into the school year, we continue to support our student with school rules and routines. Our staff continue to support our students with safety reminders and behaviour expectations, and we appreciate the ongoing support from families when conflicts and challenges arise.

Our cross-country team had a terrific season and showcased our school well during divisional meets. Our volleyball season is also underway, and we look forward to our upcoming games and tournaments. Students have settled nicely into their band and art programming, and we are starting to see and hear their learning in action. Several clubs are up and running and it is great to see so many students sharing their interests and talents in our school. We are currently running our Terry Fox program and are participating in many activities to raise money for a very worthy cause.

We strongly encourage all parents/guardians to closely monitor their child's social media accounts.

Each month, we will send home notes from the office where we will outline some activities that our school has taken part in during the month. We will also highlight some upcoming important dates. Please ensure that you are following our Instagram page for snapshots of the learning happening in our classrooms. (@georgewatersms)

As always, please continue to reach out to us if you have any questions!
