December 10, 2024

Hello Piper Families,

It is with great excitement that we reach out to you today to announce new vocational programming for John Taylor Collegiate. Our team is thrilled to share with our Piper community that JTC will offer the Nail Technology program starting September 2025.

Nail Technology is an accredited vocational program through Manitoba Education and designed to provide students with the skills, knowledge, and certification required to work in the beauty and personal care industry. The program focuses on nail care, including manicures, pedicures, nail art, and nail enhancements (such as acrylic or gel nails). Upon successful completion of the course, students can work towards provincial certification as a licensed nail technician.

Our team will be hosting an information session for interested students in January to provide more details on the program with registration starting in February. If you have any questions regarding this program after our January information session, please reach out to Mrs. Cantafio ([nadia.cantafio@sjasd.ca](mailto:nadia.cantafio@sjasd.ca)).

We look forward to helping students unlock their polished potential in Nail Technology in September 2025!

With enthusiasm,  
Your JT Admin Team
