Charting a Renewed Path

Check out SJASD's Strategic Plan for 2023-2027. The document sets a path for the holistic growth of students while bolstering SJASD's commitment to safe, caring and inclusive schools.

Portable Buildings Update

Thank you to the Province of Manitoba and SJASD for securing three new learning spaces to address programming space at Phoenix School.

The building structures were delivered during the last part of summer break. Ongoing construction has continued from the start of September to establish power, technology, and accessibility requirements for the spaces.

As the spaces are being constructed, student play areas have been shifted to the North areas of the Phoenix playground and the construction space has been isolated with safety fencing. The estimated accessibility date for the new portable classrooms is January, 2024.

Please watch for additional information regarding project status and construction timelines that will be shared as it is received.
