

EYE EXAMS AT YOUR CHILD'S SCHOOL — COVERED BY MANITOBA HEALTH

Brought to you by your School Division • Mobile Vision Care Clinic

Dear Parent/Guardian,

Did you know 1 in 3 children has a vision problem — and most don't realize it? Clear vision is essential for learning, confidence, and development. That's why your School Division has partnered with Mobile Vision Care Clinic (MVCC) to bring licensed optometrists directly to your child's school.

Eye exams are covered by Manitoba Health at no cost to your family.

HOW IT WORKS

- Your child receives a complete eye exam from Dr. Mazur, a licensed independent optometrist
- If glasses are needed, your child will choose frames with our on-site optician
- Glasses are delivered directly to the school within 2–4 weeks
- If you'd prefer to purchase glasses elsewhere, simply indicate that on the consent form

GLASSES — IF NEEDED

If your child requires glasses, MVCC will bill any available insurance on your behalf. Accepted coverage includes:

- EIA
- NIHB / Status
- Private insurance plans

If glasses are ordered, the cost is \$120 and includes:

- Frames
- Scratch-resistant, anti-reflective lenses
- Case and cleaning cloth
- 1-year manufacturer warranty

If no insurance or payment information is provided, frames will be held for up to one month while arrangements are made.

Families who require assistance with the cost of glasses are supported through our donation program — schools identify families in need on a confidential basis.

EYE HEALTH REFERRALS

If Dr. Mazur has any concerns about your child's eye health, your child may be referred to a specialist — provided permission is granted on the consent form.

WANT TO BE THERE?

Parents and guardians are welcome to attend the exam or assist with frame selection. Simply come to the school with your child first thing in the morning.

NEXT STEP: RETURN THE CONSENT FORM

Please complete and return ONE consent form per child as soon as possible.
