Collège Sturgeon Heights Convocation update

As June is rapidly approaching, so is the much anticipated convocation for our graduating class of 2021. The school is in the process of planning various scenarios as to what Convocation can look like during a year long pandemic. In the end, the Public Health directives will guide us as to what our convocation will look like as it pertains to size of the gathering and spaces that it can be held in. With so much uncertainty it is difficult to share any plans at this date.

I can share that we have set aside June 23rd, 24th and 25th as our convocation dates for this school year. We also know that the convocation will take place here at the school. Our staff is also actively involved in planning various scenarios as well as planning the décor for each of those scenarios.

Once we have greater clarity on the Public Health Guidelines anticipated at the time of convocation, we will be in a better position to share this information with you.

As for what can you do in the meantime.....

1. If your child is 18 or turning 18 before the end of June, discuss with your child the importance of them signing the consent to share info with parents form so that you can continue to receive the emails from school.
2. Continue to review with your child the importance of following the current public health guidelines designed to reduce the infection rate. (We see students carpooling to school each day, and as some students get out of the car they put their masks on when ideally they should have their masks on in the car.)
3. Pencil in the dates and remain vigilant for email updates....see #1 above.
