

HUSKY STUDENT OF THE MONTH

MEDIA PRODUCTION/SOUND ENGINEERING

Evan Clark

Evan's passion for sound is fueled by a lifelong immersion in music, beginning on piano at age four before finding his rhythm on the drums, guitar, and bass. Whether he is setting up a sound system or ringing the decibel, Evan approaches tasks focused on technique and safety, recently being on the sound team that mixed audio for the École Ness jazz & choir concert. With sights set on producing and recording live event audio, Evan is well on his way to becoming a fixture in the Canadian music scene. Be sure to ask Evan about his recycled instrument project!
