HUSKY STUDENT OF THE MONTH

Computer Science

Milena

This grade 11 student is taking my intermediate level Computer Science course after completing Computer Science 20S last year with one of the highest marks in the class. Milena has a quiet but warm personality with a strong work ethic and drive towards her studies that makes teaching her a joy. Milena is working well in the course, asks questions, is receptive to feedback, goes back and improves her work, and shows a great aptitude for programming. I hope Milena will continue to excel and find Computer Science a subject that she can pursue into her future. Great job Milena!
