

# HUSKY STUDENT OF THE MONTH

## Math

### Tae & Nathan

Tae and Nathan are taking grade 10 Intro to Applied and Pre-Calculus Math this semester. This course is no joke, and they're doing awesome! This is what their classmates had to say about them, "Tae is very good at problem solving. I often find myself turning to him for help when I'm having trouble", "Tae knows his stuff and helps me when I don't know my stuff", "Nathan works hard at home on his homework and helps people with math, asks questions to help with his learning," and "Nathan tries really hard in class and is engaged in all conversations."
