

HUSKY STUDENT OF THE MONTH

Visual Arts

Shihono

A very talented and hard-working student in Visual Arts worthy of celebration is Shihono K. She is attending CSHC all the way from Fukuoka, Japan. She plans to stay with us until she graduates in a few years. In her recent “Copying the Masters” painting, she created her own version of a famous Edvard Munch painting with such a degree of precision and richness of colour, that everyone who sees it comments on what a great job she’s done. Her other coursework is also very impressive and always created to the highest standard.
