

HUSKY STUDENT OF THE MONTH

Leader of the Pack

Andrew

Andrew had an amazing month of February at Sturgeon Heights. He has been taking part in Ms. Murphy's Science class and has made some awesome connections between the electricity unit and real world applications. In our life skills program, he has been busy helping to prepare lunches for anyone who needs during period 3. Andrew was super pumped about customizing this sweet ride with a basket and a new bell! You might see Andrew cruising the halls on his bike that he loves so much. We are all so proud of Andrew and how hard he has been working every day. Great work Andrew!
