

HUSKY STUDENT OF THE MONTH

Media Production

Collin S.

Collin is an exchange student from Mülheim, Germany. He is a promising young filmmaker who can often be found behind the camera or in the edit suite doing sound design. While attending CSHC he's improving his media production skill set so that when he returns to Germany he can continue working on his first feature film, which he hopes to release in 2027. To date, the short film version of his student project has won two gold awards in Europe. The passion he brings to each class is infectious, and he's been an asset to his fellow students and teacher.
