

HUSKY STUDENT OF THE MONTH

Computer Science

Connor

This grade 12 student is taking my advanced level Computer Science 40S course after completing Computer Science 30S and 20S with one of the highest marks in those classes. Connor has a warm personality with a strong work ethic and drive towards her studies that makes teaching her a joy. Connor does high quality work and is an independent learner showing skills well above her age. Connor shows a great aptitude for Computer Science. I hope

Connor will continue to excel and continue to find Computer Science a subject that she can pursue into the future. Great job

Connor!
