

HUSKY STUDENT OF THE MONTH

GRAPHIC DESIGN/ GRAPHIC ARTS

Chase

Chase is pursuing his vocational certificate in the graphic design / print media / graphic arts program here at Sturgeon Heights. Chase does a lot of our advanced technical laser engraving and flatbed printing, but is also very well versed in all the areas of design layout, vector replication and much more. Congrats to Chase for always taking the initiative to learn new skills, help other students and teachers. These are the employability skills that will help any student achieve any career they wish to continue with after high school.
