HUSKY STUDENT OF THE MONTH

Broadcast Media

Victoria

Victoria is an emerging young filmmaker whose engaging personality has been a welcome presence in the Broadcast Media classroom. Early in her filmmaking career, she has considered being a director due to her love of cinema and her innate leadership skills. On the other side of the camera, she enjoys acting and hopes she can continue being involved with theatre both inside and outside of the school. Her goal – to work in some capacity on a real-life film set. A creative student of many talents, we can't wait to see where her name ends up on the silver screen.
