5. Selling has never been so easy: Go to the My Fundraisers Page and Select your team

There are 3 easy ways to fundraise:

- MY QR CODE:** This button creates your own personal QR code that can be used for (safe & social distanced) face to face selling. It’s at the bottom of your page. Have people open the camera on their phone, hold the camera over your QR code (no need to take a picture), and tap the link that appears on their screen. Your sales page is now on their phone. Then, tell them

about your fundraiser as they look at it on their phone. Ask them if they would be willing to help. They can purchase as many as they like (using their credit, Apple Pay or Google Pay right on their phone). No entering their information. No collecting any cash or checks. They do it all on their phone.

- .ii. **SHARE FUNDRAISER**: This button allows you to share your link through text, email, or social media. Text yourself a link. Tap on the link that you texted yourself and check it out. This is an easy way to get the information to 100's of people right away. Text several friends the link and follow up explaining the fundraiser. Facebook is a great way to share this to all your friends and family.
- .iii. **HELPERS**: We know that parents and grandparents want to help you with this fundraiser so we have made it easy to invite them to help out. At the top of your fundraising home page please click the helpers button and access contacts. Now you can invite your family from your contacts and send them an invitation. This will send them a link to allow them to help you fundraiser. Their help will automatically be linked to your account.
