SJASD Philosophy of Senior Years

The Senior Years environment in the St. James Assiniboia School Division provides a varied curriculum to meet the needs, interests and abilities of students.

The program provides a sound basis for further education or immediate employment.

Community Connection

St. James Collegiate sits on Treaty One territory, the traditional territory of the Anishinaabe, Ininew, and Dakota peoples, and homeland of the Métis Nation.

St. James Collegiate has strong ties to the land around us and our surrounding community. We actively seek and create opportunities for our Jimmies to connect and give back to others, developing their citizenship and character skills.

School Mission Statement & Focus

The staff of St. James Collegiate strive to provide students with practical, academic, and citizenship skills to succeed with creativity, compassion and knowledge in a global community. In keeping with principles of our school division's strategic plan, we promote and value the principles of respect, integrity, responsibility and excellence – while promoting a school culture that understands and respects diverse values and world views.

We strive to develop students who are open-minded, respectful, hard-working, caring and knowledgeable. In order to achieve our vision, we value establishing connections with our local and global community. We value diversity of people, perspectives, and opportunities.
