

HUSKY STUDENT OF THE MONTH

Math

Chylsy

This grade 12 student is taking my advanced placement (A.P.) Computer Science course after completing both Computer Science 30S and Computer Science 40S with one of the highest marks in both classes. Chylsy has an outgoing and warm personality (and a great sense of humor) with a strong work ethic and drive towards her studies that makes teaching her a joy. Chylsy is working very well in the course, answers questions, and shows a great aptitude for programming. I hope Chylsy will continue to excel and find Computer Science a subject that she can pursue into her future. Great job Chylsy and good luck studying Computer Science in University next year!
